

# I, U, Us

RAYE

Delete the pictures off my phone  
You know, you know  
You were never in my zone  
Pack your bag, it's time to go  
You know, you know  
You are not the one I want

All of them messages you sent  
Talking 'bout how we should stay friends  
Come again, come again, come again  
Every single second that we spent  
Every single place and time we went  
Off again, off again, off

I, you, us  
Never, never, never again  
I, you, us  
Never, never, never again  
I, you, us  
Never, never, never again

Our story was beautiful  
You know, you know  
Tables turn and pages burn  
Tryna climb up on my walls  
You won't, you won't  
It will be as if I never knew

The next girl that you meet  
Couldn't do what I do on repeat  
Come again, come again, say it loud  
Never, ever see you on my street  
Boy, you'll never talk to me  
Let me spell, let me spell, spell it out

I, you, us  
Never, never, never again  
I, you, us  
Never, never, never again

I will no longer be yours on your shoulders  
So cry all you wanna, I can't stay to listen  
To you telling me 'bout how perfect we were  
Cause it's you who broke this and it feels so good to say  
I and I, you and I, you and us isn't right  
You were with her when I needed you by my side  
And so now you won't listen to me when I sing it to you  
It's to easy to say it like, no no no no

I, you, us  
Never, never, never again  
I, you, us  
Never, never, never again
