

Je pense à toi
J'aimerais te voir, ce soir
Je ne suis pas amoureuse de toi
(Fais semblant) Fais semblant avec moi
I wonder why
There's a stone cold breeze as I kiss him goodbye
Paris is the city of love, they say
But not for him and I
C'est la dernière fois, fois, pour toi et moi
Ouais, ouais, j'ai compris que même les bad bitches pleurent
Je rentre à la maison en Eurostar
Ce soir, fais semblant avec moi

What's that smell in the chest of drawers?
Young boy sellin' them benz and scores
Gotta get rich in desperate cause
Talk about Drill gotta mention moi
No homo but I slept with bro
Broke, I was sharin' my bredrin's clothes
Then I got rich and I kept them close
Talk about real, gotta mention moi

I can't help one girl, I need un, deux, trois
Two plus one, tell her, "Come over"
Gave her the dick like I'm on Adderall
I don't take drugs, though, I fuck sober
French girl ask, "Do I know Koba?"
Make Champs-Élysées in a Jeep chauffeur
She try ask "Will I eat?" No, sir
I use to sleep on a cheap sofa
'019 we was kitchen whippin'
If they had TikTok them times and a man asked me what I do for a livin'
Then I would've started fibbin'
Sirens, they had my heartbeat skippin'
I was a good boy till I started sinning
Car full of bud, park the habad
They can't even judge 'cause I came from the mud

What would you do in Cee's position?
They gave me a fish, they ain't teach me fishing
Back in the day I had decent bitches
But they ain't got nothin' on my recent women
What would you do in Cee's position?
They gave me a fish, they ain't teach me fishing
Back in the day I had decent
But they ain't got nothin' on my recent

What's that smell in the chest of drawers?
Young boy sellin' them benz and scores
Gotta get rich in desperate cause
Talk about Drill gotta mention moi
No homo but I slept with bro
Broke, I was sharin' my bredrin's clothes

Talk about real, gotta mention moi

I value my life, I can't die this young

There's so much fun that I'm yet to have
I got a thing for India Love, there's so much gyal that I'm yet to bang
The way I'm in-and-
out of these countries, fuck and duck, I don't get to hang
Put on my cape and set her free, I'm the reason that she left her man
Good things come to those who wait
I don't believe that, bro, you gotta grind
Two iPhone's gotta switch devices
Bro showin' me which sticks to buy
I'm here tonight but gone tomorrow, if you wanna fuck, then, quick decide
The United Kingdom tax too high, so I might leave and dip Dubai

What would you do in Cee's position?
They gave me a fish, they ain't teach me fishing
Back in the day I had decent bitches
But they ain't got nothin' on my recent women
What would you do in Cee's position?
