

# Buckwheat

Rayland Baxter

Hey Doctor  
Wont you help me breathe  
I got a real mean monster man  
Sitting on me

Hey doctor  
You mind helping me now  
Go on down to Likkity holler  
And let my dogs out

White chocolate Chester

Fiona  
Moondog  
And Willy with the one eye blue

Why oh why you got me down on the ground  
I ain't gonna run away man  
But if you let me go  
I'll never ever do you wrong again

You know me  
I'm uh  
Going  
Back to the basic plan  
With a stick in my hand  
Make a friend in the pen  
Doing ten again

And Willy with the one eye blue

Is the color of the man  
On top of me  
Take a knee  
Hit the ground  
Nobody move

Why oh why  
Would my dream come true  
Her  
Me  
You

Hawaiian nights  
Open my eyes  
Over my shoulder  
A glowing white  
I  
See  
Through
