

Cinderella

Rayland Baxter

Hey now, I'm saying
My only way out is the way in
I won't stop till you're mine, no way
Well all my days now, they changin'
I got angels, no more Satan
Looks like God's on my side

I've been meanin' to tell ya
You lookin' better every day
Write you letters, it's only right that
Right after love, I write my name
If it's forever, or never
Mmh, it's all the same
Under the weather, feel much better
When that weather isn't rain

Oh Cinderella, don't you run out of time
It feels like you've been taking all day
Wherever you come from, wherever you going
I promise I'm not far behind
So don't you throw this away

I've been meanin' to tell ya
You lookin' better every day
Write you letters, it's only right that
Right after love, I write my name
And it's forever, or never
Mmh, it's all the same
Under the weather, feel much better
When that weather isn't rain
