

If I Were a Butterfly

Rayland Baxter

I woke up again
By a warm window
Hey bro tell me everything you know
Are we lost again
Often I wonder
Do you understand
The name I'm traveling under

Love misery far away
Inside of me
Why do we live and die
Why are we together tonight
Why in a light so bright
You left me all alone in my basement
Shivering cold
I never felt so shivering cold
If I were a butterfly

If I were a butterfly
Then I could fly away
Over every mountain
Every desert
Every day
Oh my God
All I feel
All my thoughts
Are we lost
When I meet the end
I fall asleep again
So I can wake up
With my wings again
As we all float down to the bottom

Love misery far away
Inside of me
Inside of you
Often I wonder

Why do we live and die
Why, are we together tonight
Why in a light so bright
You left me all alone in my basement
Shivering cold
I never felt so shivering cold

We all try
To be like gaia
To be like ocean fire
Ocean fire
Ocean fire

Time comin every mornin
Breakdown cuz ya had enough
Time for another boring 8 bar
Then a heart attack
Time
Time

Time
Time
Time
Time
Time

Is it love
Misery
Far away
What can I say
