

Willow

Rayland Baxter

Take me to my willow and lay me down
And tell me all your secrets
So quiet now
And hold me like you need me
Don't put me down
Won't you take me to my willow and lay me down

Meet me at the station
Let's take a ride
Walk up to the heavens on the great divide
There is no love like that good love
That you provide
Won't you meet me at the station
Let's take a ride

Bring me from my bellows
I wanna fly
Go now find your lover in the rising tide
And won't you take him to your bedroom
For the night
Won't you bring me from my bellows
I wanna fly

(Nah nah nah nahs)
