

# Without Me

Rayland Baxter

Sandra, I'm ready to go  
I don't wanna be here anymore  
You're wasted and I'm bored  
I supposed I'll show myself back to the door

Do you remember yesterday?  
Did the conversation we had about life just float away?  
I sat you down, I chose to say  
You're gonna be better off without me in the way

You see everybody running around losing their minds  
You wanted me to hang around and now I'm losing mine  
A thousand days and you'll be doing fine  
Without me  
Without me

Life is wonderful on my own  
A million hours left to waste in a warm window  
But all I ever wanna do is fall in love  
To reconvene with every dream that I've been dreaming of

You see everybody running around with their head in the clouds  
All of us are doing our best to figure it out  
A thousand tears and you'll be doing fine  
Without me  
Without me

Every night I'm growing colder  
And every moon I'm feeling older  
The cavalier is burning through my heart  
I never wanna be alone  
But here I am, pacing round my empty home  
All in all, it's nothing without love

Lately I've been thinking about you  
All the curiosity is near and far  
What color is your hair, how I miss the way you stay  
And do you still drive around your golden car

And do the birds still sing outside your window  
Or is the mandolin I gave you still in tune  
To this day you've never tried to get in touch with me  
And I've never tried to get in touch with you

You see everybody running around in a crazy crowd  
It's hard to hear when everyone's shouting out  
A broken heart is never hard to find  
But darling is it yours or is it mine?  
All in all, I hear you're doing fine  
Without me  
Without me
