

Same Energy

Rayven Justice

Yeah can't wait
'Cause I'm tired of seeing your face
And you can't stop me, no breaks
I don't go for that shit, don't play
I been going hard, so hard
I can't even stop, came too far
Girl for your heart, I fall
Knock it off girl, whatchu' thought

I can't even lie but you ain't enough
You ain't bout a bag we can't be in touch
Bitch I'm from the town so you know what's up
Supposed to hold me down till I get it up
You can't, can't stand me
I can't, can't stand you
But I do love you
Fuck your attitude

These hoes switch sides I don't need it
You was never silent now I see that
All that shit you hidin' made me laugh
Keep that same energy, keep that
Keep that same energy, keep that
Keep that same energy, keep that

Call me rude, call me cocky but you still top me
You a thotty, pretty face with a nice body
Don't get it twisted imma boss bitch John Gotti
If you a hoe then you probably think a nigga cocky
Get it right your girlfriends wanna talk about me
Don't forget to tell 'em bitches that my wrist rockin'
You was high and I was fuckin' you was calling me papi
Won't stop me but now you just a memory
When you see a nigga keep that same energy
I know you mad cause misery loves company
You was never prepared for a real nigga mentally
That's why I put that pussy in the penitentiary, uh
Now you can't get no dick
Gotta treat you like you just another bitch
And you can't get no dick
Gotta treat her like she just another bitch, stop

These hoes switch sides I don't need it
You was never silent now I see that
All that shit you hidin' made me laugh
Keep that same energy, keep that
Keep that same energy, keep that
Keep that same energy, keep that
