

## Ready for Action

Razor

Cruising down the freeway in my big black limousine  
Seems like easy money just for rocking hard and being man  
Getting to the show and ain't got a minute to spare  
I love the screaming crowds and the waving fists in the air

Ignite, on stage, the rage keeps you screaming for more  
Too late, were here, and we'll knock you to the floor  
The sweat, it pours from everyone tonight  
On fire, get higher than anything in sight

Ready, ready, ready for action

Overflowing crowds are my favorite way to too let it loose  
Just play some heavy metal and there's no way I'll refuse  
Pounding so hard, we just wanna make you scream and shout  
The energy's alive and we know there ain't no doubt
