

April Ends

Razorlight

Coming back when I was yours
Your ocean smile, I wanted more
You got enough, I know for sure
But we were not there begging

A Ziploc bag dated by hand
And all the truth that you can stand
How the F does that fit in your plans?
Well, I'll be always waiting

Oh, April ends
Still you're here with me
Oh, April ends
The lights are killing me and
Oh, April ends

The very centre of the Sun
Not a single lie, not even one
That's just what we've always done
I didn't take much persuading

I play jive and I play dead
1-2-3-4, let's get to it
Let's just call it vampire night
And I'll be always at you when you bite

Oh, April ends
The lights are killing me now
Oh, April ends
Still you're here with me
Oh, April ends
The lights are killing me, but
Oh, April ends

Oh, April ends
And still you're here with me, oh
Oh, April ends
There's nothing I can see, but
Oh, April ends
Still you're here with me, oh
Oh, April ends
