

Burn, Camden, Burn

Razorlight

Oh I've been laughing to the ceiling of the twenty-nine
I've got this feeling but I'm not sure it's mine
But I know how to get it
You've got to get it to get out
You've got to get up to get out
But I ain't gonna help you up

Burn burn
Camden Town burn it down
Burn burn
Universal burn it down
Burn burn
'Who's better than who?' burn it down
I'm gonna watch it all burn
Down beneath the buildings underground

Wendy gave me something to believe in, that's fine
What could I know? I was nineteen at the time
And I'm not sure this feeling can be legally mine
But I know how to get it
You've got to get it to get out
You've got to get up to get out
But I ain't gonna help you get up

Burn burn
Camden Town burn it down
Burn burn
Jermyn Street burn it down
Burn burn
Take all of it, burn it down
I'm gonna watch it all burn
Down beneath the buildings underground

I've had this feeling since I turned twenty-nine
A guitar string 'round my neck, a woman's hand on my spine
And I'm not sure that this feeling can be reasonably mine
But I know how to get it
You've got to get it to get out
You've got to get up to get out
But I ain't gonna help you get up

Burn burn
London Town burn it down
Burn burn
'I love, you love' burn it down
Burn burn
Take all of it, burn it down
I'm gonna watch it all burn
Down beneath the buildings underground

I let it burn
Let it burn
Let it burn
