

Razorchild

Razorlight

Doors that close
They don't swing back open
Hearts that break
They don't just stay broken
You will cry
Before you're safe
But I don't know if one of us has got to change

You got wild
You got messed up
Like a real gone Razorchild

We both know
All in love is fair
Cinderella, she's gonna tell ya
About the masochism in the air
Oh you!
You're gonna cry
Before you're brave
But I don't know if one of us has got to change

You got hard
You got messed up
Real fucked up
Real stretched out
Time travels
Now you're experienced
Like someone
Worth figuring out

You got wild
You got wilder
Like a real gone Razorchild

Time travels
And you're experienced
Like someone
Like someone
Yeah like someone
Worth figuring out
