

## When He Was Twenty

Razorlight

When he was 20 he started a riot  
He had so much charisma he couldn't keep quiet  
And the girls all know but they're not telling  
My best friend's sister she's always rebelling  
And you know you really should go  
Cause if you stay, you'll find another way  
And I know that you know too much  
Much too much  
Just a little too much  
That's much too much

I'll tell you my tale, listen if you can  
It's just the story of a very lonely man  
And everything I ever tried to sneak past you  
You caught me out darling, well done for you

Cause now you know you really should go  
Cause if you stay, you'll find another way  
And I know that you know too much  
Much too much  
Just a little too much  
That's much too much

I'll tell you my tale, it's getting near the end  
Once we were lovers, but now we're just friends  
And every little lie I tried to sneak past you  
You caught me out darling, well done for you  
Cause now you know you really should go
