Which Way Is Out

Razorlight

This party isn't working, oh no
Yeah we need to find days like we used to
Living off a shoe string
never never knew what the night would bring
Now you look like you've been up for days
People walk in
Then they fall out
There's really not much to shout about

Still you rack em up, knock em back
Line em up, put them down
Have a little taste, then you look about

Yeah you rack em up, knock em back
Line em up, put them down
Have a little taste, then you figure out
And it all comes out

And you say I just can't get there, no more
So tell me which way is out?
You say I just can't get there, no more
So tell me which way is out?

And I put your picture right up on my wall
And I said show me how to walk
Show me how to talk
Show me how to be a man
That's all I need

I really put all my faith in you
But then you left right there
At the top of the stairs
With your mind half gone
And you never even cared

Still you rack em up, knock em back
Line em up, put them down
Have a little taste, then you look about

Yeah you rack em up, knock em back
Line em up, put them down
Have a little taste, then you figure out
And it all comes out

And you say I just can't get there, no more
So tell me which way is out?
You say I just can't get there, no more
So tell me which way is out?
Tell me which way is out?
Tell me which way is out?
Tell me which way is out?
I never know
I never know...
