

## Anna & Ludo - Hold Me Now

Rea Garvey

What words should we use  
To say how we feel?  
We're both afraid to lose  
Something real

So just hold me now  
Don't look for words  
Just hold me now  
I'm sure it won't hurt  
More than these feelings  
Crashing around me  
More than the thought  
That you're gone

So just hold me now  
I'm lost on this silent  
Just hold me now  
We're swimming in silence  
Why are there feelings?  
And what am I trying to hide?

This mirror never lies...
