

First date, first night
I remember you were late and I was on time
I told my mother that I knew that it was love
On that first date and that first night
First kiss goodbye
I remember getting on that L.A. flight
I told your father he's not to leave your side
And I'd be back on time

And I know that the heart don't lie
It only feels right when it's upside down

'Cause I'm dizzy
My world keeps spinning round when you're with me
My feet don't touch the ground
Ever since that day that we met
I'm spinning 'cause the thought of you just goes to my head

First tears, first fight
I remember, oh, I love your Irish pride
But I told you I'm not leaving till they carry me outside, yeah
A good love's worth a fight

And I know that the heart don't lie
It only feels right when it's upside down

'Cause I'm dizzy
My world keeps spinning round when you're with me
My feet don't touch the ground
Ever since that day that we met
I'm spinning 'cause the thought of you just goes to my head

And I remember chasing taxis through the New York City rain
With you racing down the platform to catch the last train
From the Eiffel Tower in Paris to the walls of Berlin
Any time I'm with you, my world starts to spin

'Cause I'm dizzy
My world keeps spinning round when you're with me
My feet don't touch the ground
And ever since that day that we met
I'm spinning 'cause the thought of you just goes to my head
Just goes to my head
