

Life Up Ahead

Rea Garvey

Deep in the ocean
where you can't see
lies the remains
the wreckage of me

high in the heavens
right up through the clouds
where the sun doesn't shine
and there's no sound

she goes unnoticed
claps of her hand
i know you can't see me
i have my head in the sand

you paid for your passage
they tore up the plan
i know you can't hear me
but you understand

can you see the light up ahead
baby open your eyes
can you see the light up ahead

precious is the fire in your eyes
you gotta keep it alive
precious is the fire that's inside
tell me can you see
life up ahead (2x)
i've seen you crash
fall to the side
i tried to protect you
keep the fire alive

everyone loves them for who they don't know
pull back the curtains on this traveling show

try for forgiveness
cause the hate makes you fall
there's nothing missing
and you've got it all
don't be afraid of the unknown
their time will come
and ours to go

can you see the light up ahead
oh baby open your eyes
can you see the light up ahead
and precious is the fire in your eyes
you gotta keep it alive
precious is the fire that's inside
tell me can you see life up ahead (2x)

we're indestructible
we are things that cannot break
i stand to my word
and the promises i made

tell me can you see life up ahead (4x)
