

Make It Rain

Rea Garvey

Let me wipe your forehead, wipe that sweat from your face
I won't leave you alone now we've found our place
Our home's like a castle on high
Not afraid of our enemies, not afraid of the fight
And when the mountaintops get lost in the cloud
We'll run naked through the fields knowing there's no one around
I'm at peace when I'm alone with you
I don't want to be somewhere else
With you, I'm at one with myself

I'm like a wild dog howling at the moon
I'm like the daybreak that wakes you up too soon
Like the prayers I was saying in my head
You said, "I love you", and I heard what you said

Yeah, if the world goes up in flames
We'll make it rain
We'll make it rain
Yeah, if the world goes up in flames
We'll make it rain
We'll make it rain

You said you wanted to find somewhere new
Somewhere I could be alone with you, where treetops frame the blue
We laughed while lying in the wet grass
Waiting for the sun to find us
Waiting for the warmth to dry us
I made a pledge and I said my prayer
I said, "God don't let them ever take me
Take me away from her"

I'm like a wild dog howling at the moon
I'm like the daybreak that wakes you up too soon
Like the prayers I was saying in my head
You said, "I love you", and I heard what you said

Yeah, if the world goes up in flames
We'll make it rain
We'll make it rain
Yeah, if the world goes up in flames
We'll make it rain
We'll make it rain

'Cause if the world goes up in flames
We'll make it rain
We'll make it rain
