

Plain Sailing

Rea Garvey

Now we're on a ground
These tired sails
Can carry us no more
They are hanging down
And I rereflect our story from the ground

(Uuh) Turn and face the wind
Leave this hurt behind
There is a storm comin' in
(Uuh) Let's ride upon away
Live to tell the tale
As we're finding our rests

Now seas are calm
And I am down
We're safe and hide
I steer the strait
And the rest will follow through
Now seas are calm

Uuh turn and face the wind
Leave this hurt behind
There is storm comin' in
Uuh let's ride upon away
Live to tell the tale
As we're findin' in our...

The hurt, the highs, the hate
The skies is in between the hell, the sea
I held you close
As you were leaving
You try to fix the broken friend
Will we survive it all depends
On if you go
There's no plain sailing
You know

Uuh turn and face the wind
Leave the hurt behind
There is a storm comin' in
Uuh let's ride upon away
Live to tell the tail

As we're findin' our
As we find our way
