

Talk To Your Body

Rea Garvey

I don't wanna make it complicated
I don't wanna say something wrong
I don't wanna have to ask for favors
You said no, no
I have a fear of getting alternated
Close the curtains, leave the last light on
Do you think we're getting suffocated?
Is something wrong?

Taste like old love, looks like we're bruised
We live the life we choose

If I could fly like a seaplane, oh, I'd be right beside you now
On a night like this
And when the lights go out, the way you sleep, I lay before your feet
On a night like this

I wish I could talk to your body, yeah, talk to your body, yeah, talk
I wanna get close like I'm under your clothes, like I'm all into love
This hotel smells like cheap perfume and I
I wish I could talk to your body, yeah, talk to your body right now

I don't wanna be the one who breaks us
I don't wanna watch us come undone
Do you think what we have's outdated?
I said, no, no
I know we go out of kicks to make it
All the others just try to run
Doesn't matter what the chore, we face it
Is something wrong?

Taste like old love, looks like we're bruised
We live the life we choose

If I could fly like a seaplane, oh, I'd be right beside you now
On a night like this
And when the lights go out, the way you sleep, I lay before your feet
On a night like this

I wish I could talk to your body, yeah, talk to your body, yeah, talk
I wanna get close like I'm under your clothes, like I'm all into love
This hotel smells like cheap perfume and I
I wish I could talk to your body, yeah, talk to your body right now
I wish I could talk to your body, yeah, talk to your body, yeah, (Talk to your body)
I wanna get close like I'm under your clothes, like I'm all into love
This hotel smells like cheap perfume and I
I wish I could talk to your body, yeah, talk to your body right now
I wish I could talk to your body, yeah, talk to your body, yeah, talk
