

Water

Rea Garvey

No fight, no fear, no tears in the river
No battle, no war, no cry
No wounds to the heart from banging at the rhythm
No lovers waving goodbye

We won't go down
You won't bring us down

From the mountain high to the hum of the city
From the sparkle in her eyes
She's a spider web, silk and pretty
She's more than she advertised

We won't go down
They won't bring us down

We're water, we're stronger
Won't let this world go under
We're shoulder to shoulder
We've formed the ranks of soldiers
We're water, we're stronger
There's no one left to conquer
And now we've opened our eyes
We see the paradise

No priest, no pride, no straight down the middle
No curse, no call, no crime
No cure, no cross being chased by the living
[?] it was once mine

We won't go down
They won't bring us down

From the magazine to the radio station
To the TV colored screen
I wear a flag of every nation
My saving is my believe

We won't go down
They won't bring us down

We're water, we're stronger
Won't let this world go under
We're shoulder to shoulder
We've formed the ranks of soldiers
We're water, we're stronger
There's no one left to conquer
And now we've opened our eyes
We see the paradise

No preacher, no preacher can save without love
No hunger, no hunger can be fed by words
No reason, no reason that I understand
Can't hold back the water when you have blood on your hands

We're water, we're stronger
Won't let this world go under

We're shoulder to shoulder
We've formed the ranks of soldiers
We're water, we're stronger
There's no one left to conquer
And now we've opened our eyes
We see the paradise

We're water, we're stronger
Won't let this world go under
We're shoulder to shoulder
We've formed the ranks of soldiers
We're water, we're stronger
There's no one left to conquer
And now we've opened our eyes
We see the paradise

We see the paradise
We see the paradise
We see the paradise
And now we've opened our eyes we see the paradise
