

One Day At A Time

Read Southall Band

I need a quick fix, a little something to ease my mind
I need patience, I waste away in my free time
I need a good excuse for the choices that I've made
Living in an alibi, there is no honest way

One day at a time
It's precious and hard to find
This bleeding heart of mine
Gets by one day at a time

Running in circles, just pacing through the days
I need a miracle if anything is gonna change
I need silence, I'm lost in all the noise
I need to make room instead of trying to fill the void

One day at time
It's precious and hard to find
This bleeding heart of mine
Gets by one day at a time

One day at a time
I get by

One day at a time
The light is gonna shine
On this bleeding heart of mine
One day at a time
The light is gonna shine
On this bleeding heart of mine
I'll get by one day at a time
