

Where We Belong

Read Southall Band

The road's long and it ain't paved well
Sleep stage and another motel
It ain't always heaven
But it beats the hell outta staying home

I learned some things when I left there
It's a big world and no one really cares
Who you were
Only what you will become

With a chest full of air
We'll find a way to get where we belong

Sleepless nights and misused mornings
Keep it down and the last warnings
You can't stay gone forever
Been away for far too long

Don't take for granted what you're given
It's all there for you if you'll go get it
And find yourself some friends
Get out on the road

With a chest full of air
We'll find a way to get where we belong
Anywhere but there
I'm certain that's where we belong

With a chest full of air
We'll find a way to get where we belong
Anywhere but there
I'm certain that's where we belong

Anywhere but there
I'm certain that's where we belong
With a chest full of air
We'll find a way to get where we belong
