

# Language

## Ready For The World

Como puedo explicar me  
Amor por ti  
If I can't speak your language  
Como puedo explicar me  
Amor por ti  
If I can't speak your language

When you smiled at me it changed everything I thought I knew  
I never would've believed in love before I saw you  
You keep whispering the words I don't understand  
And then you walked away with my heart and soul in your hand

Exotic beauty where are you going  
I should've taken Spanish seriously  
Please don't leave me  
I'll learn quickly  
Wish I could say what's on my mind

I can't explain it so I'll just play it

Como puedo explicar me  
Amor por ti  
If I can't speak your language  
Como puedo explicar me  
Amor por ti  
If I can't speak your language

I love the way your lipstick shines under the moonlight  
Your curves from your waist to your hips they're just so right  
But you keep whispering the words I don't understand  
And then you walked away I wanna take your hand

Exotic beauty where are you going  
I should've taken Spanish seriously  
Please don't leave me  
I'll learn quickly  
Wish I could say what's on my mind

I can't explain it so I'll just play it

Como puedo explicar me  
Amor por ti  
If I can't speak your language  
Como puedo explicar me  
Amor por ti  
If I can't speak your language

Oh, what I'd say...

Como puedo explicar me  
Amor por ti  
If I can't speak your language  
Como puedo explicar me  
Amor por ti  
If I can't speak your language

If I can't speak your language

If I can't speak your language
