

Reverse Redo

Ready For The World

When I wake up
I still see your face girl
And I cannot stop
I tried to get over it

I can't believe I played the girl I wanted from the start
It was only cause I was not ready to give my heart
I was so immature that I would lie right in her bed
And lie right to her face and not remember what I say, no

I miss the chemistry we had
We always had each other's back
I miss how your mouth would curl
When you used to tell me I could rule the world

And I don't remember all the things that I hid
I remember the day you found out what I did
And I tried my best to reconcile
Got on my knees begged like a child
Wanted her to realize I loved her

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you

And now I don't know what
I could even do to make you consider
Coming back to me and giving me one more chance
I don't want to be before to be our last dance, no
And I can't believe I'm so stressed
Everybody asking me why'd I cause this big mess
I promise it is only cause I didn't know of
That thing old folks call love

I miss when we were together
I can keep on saying but it still don't matter
You uhauled and took your life away from me

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you

Let me take a minute for myself
Looking in this mirror at this fool
I want you back

I kept a few things that I couldn't part with
Tryna find the best way to win back your heart with
But I'm so foolish I'm so foolish I'm so foolish but let me say this
If I had a chance I'd of stayed in that night
It never would've happened and you would be my wife

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you

Regret is so strong
Blinded all day long
You were real I was wrong
Wanna go back reverse redo love you
