

Time

Ready For The World

The youth think they'll live forever
No respect for one's life
Taking everything for granted
If they really knew they would think twice
Always going through changes
Just like the season and the circle of life
There's much more to the world
Than wasting time and getting spun
Don't waste your time getting spun
There will be time to have some fun
Be steal, just listen

Time's not on your side
Time will transcend your pride
Time... is so precious

From very beginning
Time is tickin'
Time waits for no one
Hands of sand man
Time is so precious
All the fights and drama
Turn into tears and trauma
Life will pass you by
In a blink of an eye
Cause time is so precious
Time is so precious
Yeah oh oh uh yeah

So blind for those who won't see
That time can comes with realities
The choices, courses and the way we behave
Determine value in the time that we save crave
The past, present and future are all marks
That makeup moments in time like sparks
So pay attention in the moment and don't let it slip away

Time's not on your side
Time will transcend your pride
Time... is so precious

From very beginning
Time is tickin'
Time waits for no one
Hands of sand man
Time is so precious
All the fights and drama
Turn into tears and trauma
Life will pass you by
In a blink of an eye
Cause time is so precious, yeah
Time is so precious
Oh oh uh uh

Time, time, time!
Is so precious

From very beginning
Time is tickin'
Time waits for no one
Hands of sand man
Time is so precious
All the fights and drama
Turn into years and trauma
Hey!
Life will pass you by
In a blink of an eye
In the blink of an eye
