Breaking Point

Real Life

I can smile so easy
And break down inside
I won't let emotion
Bring me down this time
It used to be so easy
To be in love with you
I'll never understand
But that's nothing new

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

For you I make excuses
For you I find the time
Just look the other way
And break down inside
In a comedy of heartache
Now it's time for fools
I'll never understand
How to break the rules

There's nothing wrong
This is nothing new to me
All things must have endings
So don't, don't waste your time

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

(Save all those tears)

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

Our love reached the breaking point
Where does it go from here
Get out at the breaking point
Save all those tears

Our love reached the breaking point
Where does it go from here

Get out at the breaking point
Save all those tears
