

My Ways

RealestK

And I'm tripping over you
Tell me what should I gon' do
Calling right back, talk to you
Cause you know where I been
And know what I do
Thinking back to you
Everything that we should've been through
And I know that our love's confusing
But it ain't you

Hey

Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me
Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me

Baby take care of yourself
Tell me how you there by yourself
I just want you here for some help
Some love and closure
You're taking away from something
But ends up being nothing
I don't want your bluffing
And all your friends go to hell

Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me
Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me

And why you leave me all alone
When I was there on the phone
I'm trying to tell you all along
And then you blame me all along

She says that she loves me
She will never love me
She loves a liar
And in my eyes
She loves a liar
She's a liar

Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me
Cause I'm toxic in my ways
And I see the look right on your face
I don't really care yeah what you say to me

All I ever wanted was to hold body by mine
All I ever wanted was to hold you tight tonight
All
