Baby

Look me deep, right in my eyes  
Tell me the feelings you feel when you're outside  
'Cause I've seen it outside once, I see how you feel inside  
See it in your pretty eyes

So tell if you feel okay, girl  
Tell me if you want me to wait, girl  
I can see it on your face, girl  
I can see that you're in my place, girl  
I told you that I can't catch you on your knees, if you want me  
to

All I really want is love, is love, is love  
All I really want is love, is love, is love  
All I really want is trust  
Is love  
Trust me, yeah, love me again

Wait

What did you want?  
Tell me the things that you really cannot go and face  
'Cause I don't see what you mean, what you need, close to me  
I don't wanna be the one to hold you down  
Tell me when you really want me back in town

All that I got 'cause of you  
It comes full circle, anytime I call you, baby  
All that I got 'cause of you  
It comes full circle, anytime I call you, baby

All I really want is love, is love, is love  
All I really want is love, is love, is love  
All I really want is trust  
Is love  
Trust me, yeah, love me again  
All I really want is love, is love, is love  
All I really want is love, is love, is love  
(All I really want is love, oh)  
(All I really want is)
