

Arrowhead Man

Reality Club

Made a promise to my baby, I swore I wouldn't let him go
Lately it's been crazy 'cause we won't take it slow
We got the pedal to the metal but I think I'm letting go

My arrowhead man stays up all night
I'll tell him what's wrong but he'll put up a fight
But I'm no better 'cause I can't keep things together
I'll pick his brains and he'll play with my guts every day
So in vain, oh yeah

We play with fire, a desire to put on a show
Ash on my sleeve, best believe I'mma be alright
We got the pedal to the metal but I know she ain't letting go

My arrowhead man stays up all night
I'll tell him what's wrong but he'll put up a fight
But I'm no better 'cause I can't keep things together
I'll pick his brains and he'll play with my guts every day
So in vain, oh yeah, oh yeah

My arrowhead man stays up all night
