

## Cursive Curses

Reality Club

Spilling all my secrets on the dance floor  
Struggling to find my way through  
And everyone I needed isn't there for  
Me when I don't need you

And I don't mean to whisper  
Nothing in the air  
And I make mistake the kicker  
For truth that must be kept

And so the night goes on  
Past the point  
The point of no return  
Have to linger on  
Linger though  
I don't seem to learn

Cursive curses still hurt  
No matter the source  
Love to leave you behind  
I can't run this course

And I swear it's the last time you bring me down again  
And I swear it's the last time you try to make us bend  
And I swear it's the last time you bring me down again  
And I swear it's the last time you try to make us bend

And I swear it's the last time you bring me down again  
And I swear it's the last time you try to make us bend  
And I swear it's the last time you bring me down again  
And I swear it's the last time you try to make us bend
