

## Hesitation

Reality Club

Listen won't you for a second  
There are things you need to hear  
Your mind is wandering ever-restless  
Gotta stop you while you're near

And I know this isn't it  
And I know this can't be it

Take a breather just to be here  
Promises we used to make  
Linger longer than a second  
Care to make a few mistakes?

And I know this isn't it  
And I know this can't be it

I waited too long just so I could sing this song  
Take the silly pieces of my heart  
I waited too long just so you could come along  
And break the silly pieces of my heart

Take it all ('cause I got to go)  
Watch me fall ('cause I got to go)  
Understand (I got to go take it all away)  
Take it all ('cause I got to go)  
Watch me fall ('cause I got to go)  
Understand (I got to go take it all away)

There's more to this  
I want to see the one  
Behind it all  
I'm holding on, but I can't promise that  
I won't fall  
There's more to this  
I want to see the one  
Behind it all  
I'm holding on, but I can't promise that  
I won't fall  
There's more to this  
I want to see the one  
Behind it all  
I'm holding on, but I can't promise that  
I won't fall
