

I Wish I Was Your Joke

Reality Club

Exercisin' in the midnight zone
Under the twilight we will find a home
A roof and walls upon a starry sky we will reside
And sparks will fly

Start to talk and then your diction slips
Miss the punchline, you could use a script
You're laughing at yourself and so is everybody else
Left in this place

Well the faster that you come
The sooner that you leave
I must be going down
'Cause I can hardly breathe

I wish I was your joke
Passed around in sordid bars
When you can't drive your car anymore
You'll keep me in your back pocket
Use me then you'll ignore it
I don't mind

Use me once in May and then in June
Once a month, well I don't mind that tune
Explore your expectations, baby, more is what you seek
And what you'll find

Well the faster that you come
The sooner that you leave
I must be going down
'Cause I can hardly breathe

I wish I was your joke
Passed around in sordid bars
When you can't drive your car anymore
You'll keep me in your back pocket
Use me then you'll ignore it

I don't mind at all, I'll be your late night call
Wait for your heart to fall, I'm your lover boy, baby doll
Well this striking inclination, my desire for your affection's got me
Sprung

Well the faster that you come
The sooner that you leave
I must be going down
'Cause I can hardly breathe
You'll keep me in your back pocket
Use me then you'll ignore it
I don't mind
