

## Decay

Really Red

First the fuel could stop  
Distribution's gone  
Then the food could stop  
Well, all law might be gone  
(when the trucks are gone)  
You better have a gun  
Lots of water too  
Plenty medicine  
Well it could all be through  
Chain reaction  
Can't stop the greed  
Pulling it down around our ears  
Can't stop the need  
Filling us all up with fear  
Freeze a few old folks  
Who can't pay their heating bill  
Pay a few more farmers  
Not to plow their fields
