

Hang 'Em High

Really Red

I wanna know things, I wanna know things
I wanna know things, what's going on?
I wanna read things, I wanna read things
I wanna read things, behind the scene
Know things about you and me
Know things we aren't told to see
Find out who's the keeper
An' learn to train my own eye
To know the difference between the yellow

I need to know things, I need to know things
I need to know things, what's going on?
I wanna read things, I wanna read things
I wanna read things before they're all banned
Know things about you and me
Know things from reality
The reality's not what you know
Ah there's a lot unknown

Who does control things? Who does control things?
Who does control things for you and me?
Who's got the reality? Who's got the reality?
Who's got the wire in my own way?
Know things 'bout you and me
And know things you haven't seen
Don't believe the lies you've seen
Fight to remain aware!
Learn, upset, learn, aware
Upset, upset - for me!
