

Let The Night Roar

Really Red

Who sold the symbol of patriotism
During Vietnam?
Not those who said bring 'em back
Alive while we can
Their love for their people
Was just as plain as day
Those claiming the flag made profits
As boys were slain

Let the night roar with us!
Let the night roar with us!
You can't cut us down
And you can't cut us out!
We're in nobody's back pocket now!

If there ever was a decent meaning
To the cross and the church
Now those symbols are stolen
And twisted much worse
They care little for the diet
Of kids in our schools
Their family volues are simply
Make that family consume!

Sometimes I really just wanna go
An' pitch a fit
There's nothing what it seems
When it comes right down to it
They'll steal any symbol to confuse
Make profits advance
They'd even try to steal your manhood
Right out of your pants!
