

## Lockjaw

Really Red

Over there they got no work  
Over there they think we're all jerks  
Over there they hear what we say  
And laugh up their sleeve  
All the way to the left  
Way to the right  
Sit down, shut up or fight, fight, fight

It ain't all peaches 'n cream  
That's a lie told to you by a fool  
Do what you can, but don't be anyone's  
Tool to the left  
Tool to the right  
Sit down, shut up or fight, fight, fight

Opinions are like assholes  
Everybody seems to have one  
But who's been asking yours lately  
Are YOU having such fun?

Dark of the street ain't safe  
Light of the day is poor  
Why escape into a nod  
You could do so much more!  
More to the left  
More to the right  
Sit down, shut up or fight, fight, fight
