

# Livin' Ain't Killed Me Yet

Reba McEntire

Life will throw you a curve ball  
Back against a brick wall  
Push you right up to the edge  
It'll hit you from your blind side  
Kick you in the backside  
Barely even break a sweat

It's a roll with the punches  
Funny little life we lead  
Oh, but I'm in it for the long haul  
Win, lose or draw, y'all  
It won't get the best of me

Cause I been down to the wire  
With my feet to the fire  
But this livin' ain't killed me yet  
Well I been tested and tried  
But I still got some fight  
No, this livin' ain't killed me,  
Livin' ain't killed me yet

I won't let a couple mistakes  
Wrong turns that I've made  
Be a noose around my neck  
Hurt will hurt if you let it  
Unless you just forget it  
Shake it off, and say what's next

It's an up down, spin around  
crazy kinda world we're in, oh yeah  
But I'm in it for the long haul, win, lose or draw  
Might fall, but I'll get up again

Cause I been down to the wire  
With my feet to the wire  
But this livin' ain't killed me yet  
Well I been tested and tried  
But I still got some fight  
No, this livin' ain't killed me,  
Livin' ain't killed me yet

Oh, I'm in it for the long haul  
Win, lose or draw  
As long as I've got air to breathe  
Ah, it won't get the best of me!

Cause I been down to the wire  
With my feet to the fire  
But this livin' ain't killed me yet  
I been tested and tried  
But I still got some fight  
No, this livin' ain't killed me,  
Livin' ain't killed me,  
livin' ain't killed me oh oh oh yet  
Nawwww yet.
