

# Shoulder To Shoulder

Rebecca Ferguson

Cause I feel safe when you're near me  
And I can hold you completely  
Although you constantly hurt me

And we fight  
And we cry  
And we tell the same lies about love  
And we cling to each other shoulder to shoulder against the world

So I'm gonna drag you down  
Whilst you drag me down  
And I'm gonna shout at you  
Whilst you shout at me until we realize that real love is free free

And I get a kick when you worry  
That you are just no good for me  
And I feel weak watching you plead

And we fight  
And we cry  
And we tell the same lies about love  
And we cling to each other shoulder to shoulder against this world

So I'm gonna drag you down  
Whilst you drag me down  
And I'm gonna shout at you  
Whilst you shout at me until we realize that real love is free free

Don't be my downfall  
Don't be my downfall  
Don't be my downfall  
Don't be my downfall

Let's leave it alone  
We can work it out  
Find our way  
Forget the past  
Cause I love you and you love me  
So let's crawl free

So I'm not gonna pull you down  
Whilst you pull me down  
And I'm not gonna shout at you  
Whilst you shout at me because I've realized that real love is free  
Free  
Free
