

# Stars

Rebecca Ferguson

One look and you had me  
How'd you do that? Still can't explain  
Two eyes that see me  
Have I gone mad? Can't turn away  
Third time lucky is what they say  
I used to think that they were crazy

You're just a girl that lost her way  
Another diamond outta place  
Don't ask me how, don't ask me how  
Don't ask me how I know now

I see it written in the stars  
Written in the stars  
Written in the stars  
Written in the stars

Gonna kick my shoes off  
And just lay here, forget about time  
I never knew I wasn't living  
Till you brought me to life  
Showed me a world I never knew  
Oh, baby, I have been waiting for you

You're just a girl that lost her way  
Another diamond outta place  
Don't ask me how, don't ask me how  
Don't ask me how I know now

I see it written in the stars  
Written in the stars  
Written in the stars  
Written in the stars

So light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up, light up, light up  
Light up, light up  
Light up, light up

See it written in the stars  
I see us written in the stars  
Light up my life, light it up  
Light up my life, light it up  
Light up my life  
Light up, light up  
Light up, light up, light up
