

2020 Vision

Rebelution

Never give in, we never give up
Coming back again like a selecta with the wheel up
Time to go and seek out
Bout to go and re-up
Got my second wind
Watch it when I speak out
They hover round like a flock
Vultures
They want a piece of what I got
Vultures
You think you got the higher ground but you didn't now
Caught em off guard
And you wonder how

1, 2, 3

We don't mind
We like it like that
2020 vision, we got eyes in the back
We like it like that
We like it like that
2020 vision, we got eyes in the back
We don't mind
We like it like that
2020 vision, we got eyes in the back

2020 a division
Done sight the premonition
Clairvoyant with the third eye
See the bird's eye with precision
Real to the core, a no fiction
Fly we a fly check the wingspan
Haters them fall in a quicksand
Them nuh ready fi run the distance, no
Them nah guh drain my energy at all, no time
And I can see my enemies all fall round I
That's how we like it
Pass the chalice make me light it

We don't mind
We like it like that
2020 vision, we got eyes in the back
We like it like that
We like it like that
2020 vision, we got eyes in the back
We don't mind
We like it like that
2020 vision, we got eyes in the back

It's a fact
Put them on blast
Burning out the wicked like I would a twamp sack
And now they're gassed
Shattered like glass
Karma's a bitch
Anybody could tell ya that
Listen

Rise above the haters and I mean it
Love to watch em waste all of their time, it's so redeeming
What is the meaning?
Reach a higher ceiling
Feeding off the wicked
What a sight, it's so revealing

We outlast together
Intact
Forever
2020 vision, we got eyes in the back
We outlast together
Intact
Forever
2020 vision, we got eyes in the back
We outlast together
Intact
Forever
2020 vision, we got eyes in the back
We outlast together
Intact
Forever
2020 vision, we got eyes in the back
