

## Constellation

## Rebelution

Sometimes I wonder where you are  
And if you miss my company  
Go figure, I can see your stars  
Your constellation right on top of me  
What does your sign say today?

I hope it mentions something of my name  
And know that you're not tucked away  
I pray that I'm not tucked away

Sometimes I wonder where you are  
And if you miss my company  
And when I look up to your stars  
I can feel your loving energy  
What does your sign say today?

I hope it mentions something of my name  
And know that you're not tucked away  
I pray that I'm not tucked away
