

Healing

Rebelution

I don't wanna lose control
but I know I won't be long
Life is good, remember that
even long after I'm gone

Feeling like you feel
Deep into your soul take this from me
Sending you some healing energy

Play a tune, your favorite song
Find some ground to sing along
Take your time, remember that
Find some ease to keep you on

Feeling like you feel
Deep into your soul take this from me
Sending you some healing energy

Feeling like you feel
Deep into your soul take this from me
Sending you some healing energy
