

Places Unknown

Rebelution

Go out and get it while you can
I hope you realize it's a short lifespan
Soon I think you'll understand it's in your hands
And at what point do you just chance it
Cause you can't always play it by the book
Note that
To take a risk, well, sometimes that is just mad

Listen real close
To yourself because nobody knows
Watch it evoke
Memories that lead you to home
Life it takes a toll
But even failure can lead us to grow
Never on your own
Keep on treading to places unknown

Go out and get it while you can
I hope you realize it's a short lifespan
Soon I think you'll understand it's in your hands
And when it feels like a crossroad
Which direction you should go
When you can't find your own ground
And the fear to be alone

Listen real close
To yourself because nobody knows
Watch it evoke
Memories that lead you to home
Life it takes a toll
But even failure can lead us to grow
Never on your own
Keep on treading to places unknown

Sometimes life fi rock ya boat
Don't let ego stunt ya growth
Risk it all or lose the chance
Yes it hard fi beat the odds
Nuh make fear cut ya throat
Time will pass you by in aloof
In these times you haffi cope
O yeh
Tell every youth weh born inna di ghetto
Work hard fi ya dreams
Nuh make nuh body mash it up
Have ya talent and ability
Nuh badda give it up
Only you can lift it up
O yeh O yeh

Listen real close
To yourself because nobody knows
Watch it evoke
Memories that lead you to home
Life it takes a toll
But even failure can lead us to grow
Never on your own

Keep on treading to places unknown
