

I've Done Everything I Could Do Wrong

Reckless Kelly

The road to hell is paved with good intentions
I had good intentions all along
I stopped by the bar to see some old friends
Yeah I had good intentions all along

I've done everything I could do wrong
I've done everything I could do that was wrong
I should've called you on the phone
I've done everything I could do that was wrong
I've done everything I could do wrong

Said id be back in one hour
But I borrowed the car from your mom
I knew when the cop pulled me over
Well the blinkers and taillights were gone

I've done everything I could do wrong
I've done everything I could do that was wrong
From now on ill be walking home
I've done everything I could do that was wrong
I've done everything I could do wrong

Although I adore you, I might up and bore you
And it was on Christmas, that you told me this must be so wrong

I've done everything that I could do that was wrong
Maybe we need some time alone
I've done everything I could do that was wrong
I've done everything I could do wrong
