

# One More Time

## Reckless Love

Now there's an open road  
Baby I've got to go 'cause I've been here for far too long  
We had our good times I know but baby I'm gettin' old  
And the winters are far too cold for rock n' roll

We were never the perfect couple  
We were never nothin' but trouble

We gotta do it one more time  
One night together  
One more time, one crazy ride  
One more time, on one another  
One more time we say goodbye  
I can't stay with you forever  
Baby you're the best fun that I've had  
So one more time one night together  
Make it mad!

Now it's the time to leave, didn't we both agree  
There's a lot more for us to do and the world to see (Yeah, didn't we?!)  
Free, the feeling of great relief when I hear the sound of my wheels  
I've set myself free again back on the streets

We were never the perfect couple  
We were never nothin' but trouble

We gotta do it one more time!  
One night together  
One more time, One crazy ride  
One more time, On one another  
One more time we say goodbye  
I can't stay with you forever  
Baby you're the best fun that I've had  
So one more time one night together  
Make it mad!

Make it mad!

We were never the perfect couple  
We were never nothin' but trouble

We gotta do it one more time!  
One night together  
One more time, One crazy ride  
One more time, On one another  
One more time we say goodbye  
I can't stay with you forever  
Baby you're the best fun that I've had  
So one more time one night together  
Make it mad!
