

# Outrun

Reckless Love

Tonight got my engine running  
Tonight you will hear me coming  
I see you wanna feel like a trophy  
Don't need to be talking to them  
Don't need to flirting with them  
Red light turns into green

Now  
(Now, now, now)  
The race has just begun  
And I can see you love the chase  
I'm gonna outrun everyone  
So let's go have some fun  
Baby you cannot escape  
I'm gonna outrun everyone

Take this for a clean confession  
You are like a speed obsession  
Feel me spin your wheels oversteering  
(Spin your wheels oversteering)  
We live for the competition  
My key is made for your ignition  
Gear in climax nearing

Now  
(Now, now, now)  
The race has just begun  
And I can see you love the chase  
I'm gonna outrun everyone  
So let's go have some fun  
Baby you cannot escape  
I'm gonna outrun everyone

Tonight neon skies are crying  
Tonight we will ride like lightning  
With you I'm afraid of dying  
With you living feels like flying

Now  
(Now, now, now)  
The race has just begun  
And I can see you love the chase  
I'm gonna outrun everyone  
So let's go have some fun  
Baby you cannot escape  
I'm gonna outrun everyone
