

Push

Reckless Love

I feel the shivers runnin down my spine
When I see your fine
Figure at the shoreline
You're wearing little n you wear it well
But it's cold as hell
Gonna freeze over in on time
Nights grow colder every moment
Come under covers in darkness under winter skies

Push your body against me
Push and feel my heat
Baby the nights are getting cold
Get your body close to me

Push your body against me
Push Push Push n squeeze
Baby the nights are getting cold
So push your body close to me
And share the body heat
And share the body heat

The summers over and it's out of reach
Nobody on the beach
The wind is blowing colder
The winter's here n everybody's gone
But we're not alone
Cause what got it still strong
Nights grows warmer every moment
Under the cover hot under the northern lights

Push your body against me
Push and feel my heat
Baby the nights are getting cold
Get your body close to me

Push your body against me
Push Push Push n squeeze
Baby the nights are getting cold
So push your body close to me

Get closer to me
Get closer to me, baby
Get closer to me
Get closer to me
It might get slightly naughty
If I got some luck tonight
Now I don't talk about the ordinary
Skills how to survive

Push your body against me
Push Push Push n squeeze
Baby the nights are getting cold
So push your body close to me
Push your body against me
Push Push Push n squeeze
Baby the nights are getting cold
So push your body close to me

Push...
