

Turborider

Reckless Love

Turbo-Rider
Yeah!

Tonight in the center of a storm
Where the rider is reborn the sky is torn
Tonight she's in cybernetic form
And the deadly wheels are turning

Now here comes Turbo Rider
Your true desire
She's gonna find ya
The sole survivor
Surrender to the
Turbo Rider

More electric than before
A rotten hybrid to the core
And feeding on eternal fire
She is coming back for more
And if you're not ready for war
Surrender to the Turbo Rider
Ha

Tonight she's a killer on the road
And her algorithm knows where you will go
(She will know where you go)
Tonight there's no glitches in her code
The system got no weakness
You'll feel her firepower

More electric than before
A rotten hybrid to the core
And feeding on eternal fire
She is coming back for more
And if you're not ready for war
Surrender to the Turbo Rider

Stunning and elusive
Flesh and carbon fiber
Faster than lightning
Silent like a viper
Strikes like a virus
It's pointless to fight her
(She's your)
Turbo Rider
Turbo Rider
No mercy

More electric than before
A rotten hybrid to the core
And feeding on eternal fire
She is coming back for more
And if you're not ready for war
Surrender to the Turbo Rider
