

## LA

### Recover

Let's go have some drinks, find a girl maybe we will fall in love tonight, tonight, take your life away, you are so much fun, drop your drinks, destroy hospitals, I hope we get there in time.

I love the way L.A. sounds, I used to dream, I'm older now, you make me shake 'til I can't stand, I want to feel you again.

Take the next flight here, hold me close, don't let this end, take my life, take my life away.

I love the way L.A. sounds, I used to dream, I'm older now, you make me shake 'til I can't stand, I want to feel you again.

You again.

I love the way L.A. sounds, I used to dream, I'm older now, you make me shake 'til I can't stand, I want to feel you again.
